

# Safeguarding your learning data in the age of AI

## Question: is Cicero privacy compliant?

**Answer:** Cicero complies with GDPR and PIPEDA, and continually improves data protection.

---

## Question: what data is collected?

**Answer:** Cicero collects only essential information: name, email, and optional learning progress tracking. **Benefit:** reduces risk and emphasizes our privacy commitment.

---

## Question: how is my data protected?

**Answer:** multiple security layers:

- **Strong encryption:** data is scrambled in storage and transit (think digital lockbox).
  - **Cloud protection:** secure cloud with built-in defenses against cyberattacks and malware (constantly vigilant security team).
  - **Data organization:** data is separated, with dedicated resources available (organized compartments).
  - **Secure locations:** offices meet high security standards, like high-security buildings (ISO 27001 & SOC 2).
- 

## Question: what is Cicero's privacy by design approach?

**Answer:** privacy is integrated from the start:

- **Data interoperability:** secure data sharing across platforms.
  - **Enhanced trust:** robust privacy builds confidence.
  - **Regulatory compliance:** adherence to data privacy regulations.
  - **Improved collaboration:** secure data sharing across departments and partners.
  - **Cost efficiency:** reduced infrastructure costs.
- 

## Question: how does Cicero integrate and evolve?

**Answer:**

- **Easy integration:** works seamlessly with existing systems like Articulate Storyline 360™.
  - **Leveraging SCORM:** ensures compatibility with SCORM-compliant systems.
  - **Interactive content creation:** enables engaging learning experiences through its Storyline plugin.
  - **Detailed progress tracking:** utilizes xAPI to monitor learner performance effectively.
  - **Secure and efficient integration:** guarantees data safety and smooth implementation across any compliant LMS.
  - **Continuous improvement:** constant security enhancements and pursuit of higher certifications (ISO 27001 in 2025).
-
